MANUALS FOR OLD WINCHESTERS - Winchester Catalogs from 1875 through 1920 contained operation manuals for all guns including cutaway drawings and component parts pictures. Each manual took Arnold months to prepare and to the best of our knowledge the set was never mass produced. Beginning just after Christmas in 1956 and continuing for the next four years, Winchester engineer A.A. Arnold produced an amazing series of gun manuals. In a few instances, special instructions are required, and these are listed with each gun under "Reassembly Tips." In certain cases, reassembly photos are also provided.
